

– Business/Functional Analyst–

Job Description

Do you believe finance can be something more meaningful than just a bunch of greedy wolves fooling around with others' money until a crisis happens? Would you like to build a world where everyone can access a user-friendly tool to grow their money fairly and according to their needs? Do you have what it takes for that? Great, because Gambit is currently recruiting an Analyst for their product!

As IT Product Analyst, you actively take part in the products life and the implementation of those products at our clients. You will join a multi-disciplinary team and will be in charge of specifying the functionalities of the tool based on the client requirements and technical constraints. You also take part in the products roadmap definition.

Tasks

- Collect and understand the clients' and the market's needs;
- Understand how these needs could be implemented;
- Find solutions to meet clients requirements using new or existing products in collaboration with our architects and senior experts;
- Translate those requirements into functional specifications that can be easily used by developers and QA officers
- Follow-up their development, validation and production phases;
- Follow-up the Quality Acceptance;
- Take part and/or take the lead on the evolutions of the products and their roadmap;
- Reactivity and adaptability will be part of your daily challenges, as the Fintech environment is always on the move. You will also be in direct contact with clients and will have the opportunity to travel to meet clients and prospects.

ABOUT GAMBIT

Gambit Financial Solutions is a European leading expert in Investment Advisory, Risk Management and Portfolio Optimization. It was created as a spin-off of HEC-Liège (Management School of the University of Liège).

While keeping strong ties with HEC as the motor of its R&D efforts, Gambit has evolved into a full-fledge commercial company. It has developed an international client base and implemented its solutions in various recognized financial institutions in Belgium, Luxembourg, France, Switzerland and beyond. Each of those solutions was built on strong expertise in IT and financial knowledge, and with client-centricity as a constant redline.

Required Knowledge, Skills and Abilities

Education and Experience

- Bachelor or Master's degree, preferably in a computer science or technology field such as engineering, or a business degree with a strong focus on computer science, information technology, or a similar field
- 3 years of experience in software conception or a relevant experience as a functional or business analyst in IT field
- Previous experience in the banking sector and specifically in investment advisory activities is a plus

Hard Skills

- Experience with business process modeling techniques such as BPMN
- Proven affinities with digital applications and/or information technologies
- Strong analytical skills, with the ability to quickly understand and resolve issues, in the context of IT-oriented projects
- Basic knowledge of project management
- Experience in SQL is a plus
- Basic knowledge in finance is a plus

Soft Skills

- Team-player and team-oriented attitude
- Client oriented mindset
- Stress resilient
- Open to travel for periodic workshops or missions
- Solution-driven
- Whatever it takes!
- Resourceful even in uncomfortable situations

Communication

- Fluent in FR and EN (NL is a plus)
- Good communication skills written and oral

Offering

- **Working in an inspiring Fintech spirit:** A dedicated team awaits you to join them in challenging the established rules and creating a new financial environment that would be simpler and more transparent for everybody.
- **Fast personal developments:** As a Fintech, everybody on board has a crucial role to play and will be quickly granted with responsibilities. This is a great opportunity for you to challenge your skills and talents without having to wait several years to get to a position with decisional power.
- **Collaboration with young and dynamic talents:** Who better than millennials could build solutions for millennials (or rather anyone with the same progressive mindset)? That's why we have chosen to trust young talents who are craving for innovation, to build products they would like to use.
- **A people-oriented culture:** At Gambit, we will not ask you to wear a tie nor grey suits. If you want to listen to music, it's fine! We will just ask you to be passionate about your job, and to love sharing your expertise. In addition, when things get a bit heated, enjoy our Fridays' Happy Hours with a foosball and great (Belgian!) beers.
